

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Burton Litwin
DOCKET NO.: 03-22370.001-R-1
PARCEL NO.: 03-08-208-009-0000

The parties of record before the Property Tax Appeal Board are Burton Litwin, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 32-year old, multi-level frame and masonry dwelling containing 1,260 square feet of living area with an unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, three comparables are located approximately one-fourth to one-half mile from the subject, and one is located approximately two miles from the subject. The comparables are multi-level frame and masonry dwellings that are 26 to 39 years old. Three of the comparables have a partial basement, and one has a full basement. One comparable has central air conditioning, and another has a fireplace. Information on garages was not disclosed, but photographs supplied by the appellant indicate that at least three comparables have garages. The comparables contain 1,221 to 1,543 square feet of living area and have improvement assessments ranging from \$10.11 to \$11.84 per square foot. The subject property has an improvement assessment of \$15.94 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,048
IMPR.:	\$	20,087
TOTAL:	\$	26,135

support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing two suggested comparable properties that are located on the same block as the subject. The comparable properties consist of multi-level frame and masonry dwellings that are 29 or 30 years old. Each comparable has a full, finished basement, a fireplace, and a garage, either two-car or two and one-half car, and one comparable has central air conditioning. The dwellings contain 1,205 and 1,416 square feet of living area and have improvement assessments of \$15.05 or \$15.61 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

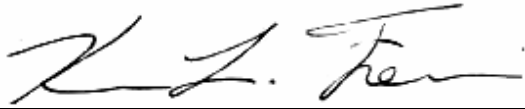

Both parties presented assessment data on a total of six equity comparables. The appellant's comparable one differed significantly in location and received reduced weight in the Board's analysis. Although the appellant's comparables two, three, and four were similar to the subject in age and physical characteristics, the board of review's comparables were most similar to the subject property in location, age, and physical characteristics. Located on the same block as the subject, the board of review's comparables had improvement assessments of \$15.05 and \$15.61 per square foot and support the subject's improvement assessment of \$15.94 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
